

RCT FIREPLACE PRODUCTS (Formerly James Smellie)

Have been Manufacturing Bespoke Metal Products for the Fireside Industry for over 100 Years.

Our Stove Frames are traditional made in a double layered steel method. Starting with a mild steel backing frame and wrapped with an outer layer finish of your choice, giving you perfect Smooth Edges and Mitred Corners.

The Stove Frame has a Face size of 50mm and an Inside Return of 50mm. The double skinned layers are approximately 3-4 mm thick when finished.

You just measure the opening in the wall and we will make sure that our frame will fit when it arrives.

Delivery time from order to arrival is
Approximately 7-10 working days.

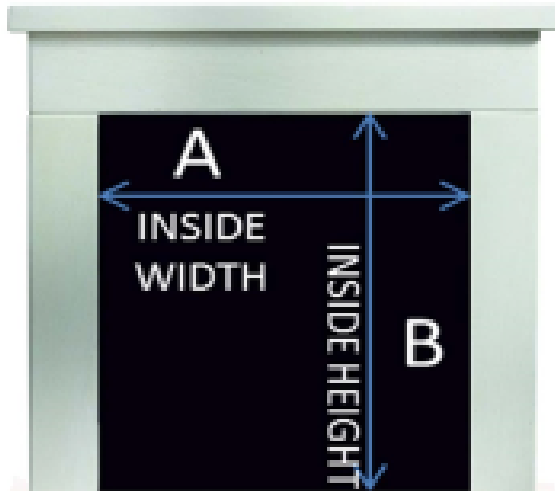

ORDER FROM OUR WEB PAGE OR
EMAIL: fireplace@rctltd.co.uk
or Phone: 0121-561-1167

SEE ALL OF OUR PRODUCTS at :www.jamesmellie.co.uk
We also manufacture, made to measure fire frames with any combination of face and return size, you don't have to stick to 50mm like the stove frame. Further to the Black and stainless we can offer both Brass & Copper All priced individually
